*Champion Plastics provides the most competitive prices,
the highest quality products, the largest selection, on-time delivery and the
BEST SERVICE IN THE FLEXIBLE PACKAGING INDUSTRY!*

Extruders operate 24 hours a day with chilled-air rings, providing a quality product.

The winding process turns out millions of rolls of polyethylene, ready for shipment nationwide.

Modern equipment provides efficient operations and savings.

Capabilities & Facilities

Our manufacturing facilities are state-of-the-art. We have silo storage for more than two thousand tons of resin. With 15 extruders operating 24 hours a day, we manufacture thousands of bags daily. For optimum customer satisfaction, quality expediting of each order is supported by Champion's Customer Service Department, from production to worldwide delivery.
